

ABOUT DEPARTMENT:

SKBR has a long and successful history of designing programmes under Computer Science discipline. The Department of Computer Science was established in the Academic Year 2000-2001 with Mathematics and Computer Science as allied combination with an intake of 30 seats. One post graduate programme M.Sc.(Computer Science) with an intake of 30 seats was sanctioned from the Academic Year 2018-2019. With rapid evolution and Continuous need for innovation the department has started the B.Sc.(Computer Science, Datascience, Statistics) program during the academic year 2020-2021 with the permission Acharya Nagarjuna University with an intake of 30 seats. The department organizes guest lecturers by eminent personalities to inculcate the knowledge into the students. The department is conducting student seminars, quiz programs and internal examinations to assess the progress of the students. The Department is providing study material for better results and also conducting remedial coaching for the slow learners. The department encourages as well as guides the students to build up their career. Additional reading material is available in the department for the students preparing for entrance tests for Higher education.

The Department is operating on the clear recognition that computer science fundamentals must play a critical role in many emerging technologies, not to mention that Software Knowledge continue to be the key in the IT industry in general. This operating philosophy drives our approach to teaching. Department is providing qualitative learning environment to student community enabling them to build-up willingness to learn and work.

The Department has well qualified and experienced faculty. The faculty members are deputed to participate in Conferences, Seminars, Workshops and Refresher Courses to keep in pace with recent developments in the field of Information Technology.
